

IN THE COMMUNITY

On Tuesday June 22nd, Adroit Technology Enterprises, LLC (Adroit) participated in the Florida .Net Developer User Group meeting that was held at CompTec in West Palm Beach, FL. Adroit provided refreshments in the form of Pizza and Soda for the 20+ professionals that were on hand to hear Don Demsak (CTO - Telago, Inc. / Microsoft MVP / INETA Speaker) speak about “Moving from the DataSet to Data Services (WCF)”. The presentation was set to the theme of Star Wars, and it offered the participants knowledge of how to replace your current DataSet driven applications with WCF Data Services while leveraging ADO.Net and LINQ.

The Florida .Net Developer User Group will meet once a month in person or on line to watch a developer focused presentation or demo. You may learn more about The Florida .Net Developer User Group by reviewing their website at **Error! Hyperlink reference not valid..**
