

IN THE COMMUNITY

On Saturday May 8th, Adroit Technology Enterprises (Adroit) sponsored a team of individuals to volunteer at the Cooperative Feeding Program's annual Letter Carriers Food Drive "Stamp Out Hunger" that yields over 250,000 pounds of donated food.

The Cooperative Feeding Program made use of 350 – 400 volunteers at 11 different United States Post Office (USPO) branches across central Broward County. Adroit was stationed at a USPO in Oakland Park, FL, and was responsible for receiving, sorting, boxing and stacking on pallets all donated food that was collected by Postal Service employees during their routes earlier in the day. It was hard work, but in the end Adroit assisted in filling an 18 wheeler to capacity. It was filled with food staples that will be used to assist individuals and families that are in need throughout Broward County.
